

November 2, 2004

Dear Community Member/Property Owner:

I'd like to take this opportunity to invite you to our open houses in November to learn more about a proposed project to extend Midwestern Gas Transmission Company's (MGT) interstate natural gas pipeline system. Please refer to the enclosed Fact Sheet for more information.

At the open houses, you'll have the opportunity to learn more about this project including; the planning, construction, environmental considerations and requirements, operation and safety measures. Please bring a tax map of your parcel and/or parcel ID number; this will help us identify your property in reference to the proposed route.

We will have representatives from MGT available to share information with you and to answer your questions. We are also very interested in hearing from you about how this project can be best aligned with community interests and priorities. The Federal Energy Regulatory Commission, the federal agency that regulates projects like this, may also have their staff at the meetings to answer any questions that you may have for them.

To learn more, please join us at any of the open houses.
